Objective

Motivated Junior MERN Stack Developer with strong expertise in building dynamic and responsive web applications. Highly skilled in the latest front-end technologies including HTML, CSS, JavaScript and modern frameworks like React JS, Tailwind CSS, and Bootstrap. Possessing one year of practical experience developing projects and collaborating with teams, I am passionate about creating efficient, scalable code and user-friendly interfaces.

Experience

Digitech Infra Associates	2024 - Present
MERN Stack Developer Intern	
• Gained practical experience developing dynamic web applications, with a primary focus on front-end development using React JS. • Collaborated actively with the MERN development team to build and deploy real-world client projects, including interactive dashboards and simplified user interfaces (UI). • Utilized Tailwind CSS and Bootstrap frameworks to ensure all projects were fully responsive and cross-browser compatible. • Integrated REST APIs into front-end components, enabling smooth data flow and real-time UI updates across the application. • Worked efficiently with Git and GitHub for version control, ensuring smooth collaboration and clean project maintenance.	

Education

• Jackson Secondary School Keamari Karachi	2022
Matric (SSC) from Board of Secondary Education Karachi.	
• Al-Beroni Intermediate college Ahsanabad Karachi	2025
Intermediate (HSC) from Board of Intermediate Education Karachi.	
• AD Computer Teacher Learning Institute	2023
Diploma In Information Technology	
• ICE Institute Of Computer Education	2024
Diploma In Web Development

Personal Projects

React JS E-Commerce Platforms

Developed multiple functional e-commerce websites using React JS, featuring dynamic product displays, shopping cart functionality, and responsive page layouts.

Personal Portfolio Website

Designed and built a modern, responsive personal portfolio website using React JS. Featured sections effectively showcasing skills, projects, and project management abilities.

Client Dashboard & UI Projects

Worked alongside a development team to deliver client dashboards using React JS and Tailwind CSS. Implemented reusable UI components and responsive, user-friendly dashboards.

Languages

- Urdu
- English
- Arabic

Activities

- Contributed to small open-source projects on GitHub
- Regularly practice coding challenges on platforms like LeetCode, CodeWars, or HackerRank
- Provide guidance on learning paths
